VISION AND IMPACT on education

Direct Value For You And Your Leadership Health

Clarity of Value

Confidence in the current value of your leadership & your organisation.

Future Value

Ownership of a realistic, measurable, and achievable vision.

Healthy Work Life Blend

Work-life balance is a myth. A healthy work-life blend is very much in your hands.

Stress Relief

Reduction of staff stress levels. Increase in staff retention.

Workload Reduction

Clarity of autonomous possibilities leading to reduction workload.

Removal of Waste

Maximise time, money and talent. Remove distractions from core purpose.

Strengthened Relationships

Reduction of communication issues between affected parties, leading to fewer concerns and complaints.

Locally Led Curriculum

Identify and remove pain-points and overcrowded curriculum.

Think Flow!

You are leading a system. One value flows onto another. Likewise, one challenge flows on to another, and so you're the results of your work-life flow.

Vision & Impact: A First Principles Approach

Clarity on what is already working well, before launching any changes is essential. Your vision is much easier to describe as you are more discerning about what you envision can be supported and achieved. A values-driven vision and impact focus begins with identifying the existing value everyone brings to your organisation. Of particular importance is the alignment of value between staff, families, resources and other service providers.

Why choose a Vision & Impact Focus

Areas of interest and talent are showcased. Pain points are identified. Any erosion of value is rectified.

Focussed and effective teaching is results-driven for lasting value.

Everyone benefits.

VISION AND IMPACT

Where your investment will bring value.

Vision Descriptor

Create a clear vision and a compelling story of what you aim to achieve and how everyone will benefit.

Value Mapping

Map the responsibilities of the affected parties. Consider their current value. And think about how your vision will impact their duties.

Curriculum Value

Check the existing curriculum and educational content. Assess its alignment with your vision.

Resources and Facilities Review

Review readiness, the value of development options and any impact on current services.

Personalised Teaching

Analyze the value & assessment of current methodologies. What changes do you expect?

Student Assessment

Review alignment of current & potential student assessment, evaluation, feedback and reporting. What value will your vision bring to current expectations?

Continuing Professional Development

Examine the value of personalized, group, and organization-wide CPD. What is and isn't in alignment with your vision?

Extended Services

Review current benefits of local community and external service providers. Assess the potential of expansion for achieving the vision.

Governance and Leadership

Establish leadership structures for your vision to encourage innovative ideas. Align with your current processes to bring optimum value.

Investment Opportunities

Consider current budget allocation, potential adjustments and new sources of income.

Regulation Alignment

Reduce red tape. Develop avenue of support and advocacy from external decision makers.

Feedback Mechanisms

Review feedback from stakeholders. Consider alternatives to collection methods and value.

WORK WITH CHERYL

We begin with a complimentary 30-minute meet up

This initial discussion sets the stage for understanding what's working well for you, the challenges you face, opportunities you're wanting to explore and how your organisation would look if it was working just right.

At the end of our time together we'll agree on three outcomes:

1. I can help you, or another source of support would be more beneficial at this time.
2. Working together is a natural next step.
3. The priorities we will work on.

You'll receive a summary of our discussion, a plan for our work together and the investment.

How your plans might work:

Plan 1: Above Board Review

Leadership and Organization Exploration

3 x 1-hour sessions over 30 days

Plan 2: Visioning With Clarity

Strategy Development Phase

4 x Full Day sessions or 8 x Half Day sessions over 60 days

Unlimited phone and email support.

Plan 3: Stay The Course

Implementation Support

You'll have unlimited support by phone, zoom and email for 90 days.

This period is crucial for your implementation phase.

Plan 4: Change Project Option

Targeted, short sharp focus negotiated as a one-off focus.

Fees vary depending on how we agree to work together. Factors include how many plans we undertake, who in your leadership team joins us, and the time frame we are working around. As all work is tailored. There is no hourly rate.
